

All Aboard

Equipment:

12 inch round rubber circles

Divide the children into 3 groups. Each group is given 10 dots (12 inch round rubber circles). Each group must make it across the playing field using the dots to step on. If one person touches the floor the group returns and starts over. Oh, no one gets to talk. As the children get better at this game, each time they go back they relinquish one dot.

This Activity is from the YMCA's of North Carolina.
